

Did You Know...

85% of what a child learns is through the magic of sight
1 in 4 school age children have a vision problem
significant enough to affect learning

Blindness is the 4th most feared disability.

Without education and awareness programs to encourage
preventative care, Age related vision disorders are expected
to double in the next 15 years.

Blindness is the 3rd most common disability for individu-
als aged 70 and over.

Did You Know...

You could make a difference.
